# SOUTH WEST COAST PATH WalkPlanner

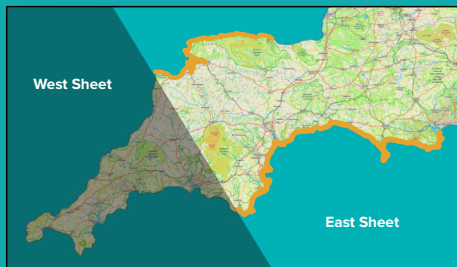

**A guide-book in map form to help you plan great days on England's top long-distance path**

Lodging Edition – East Sheet  
**Exmoor, Dorset and most of Devon**

All the information you need to plan walks is placed directly on the map so that you can instantly find it, at a glance.

A map has other advantages too: it's good for showing handy bus routes; it works for walks in either direction; and it's lighter and cheaper.

The map splits the path into relatively short stages, to suit a wide range of walkers. You're young, fit and keen to crack on? Tackle two stages a day!
